

# DYAVANANDI SHARANYA

[sharanyadyavanandi@gmail.com](mailto:sharanyadyavanandi@gmail.com) | +91 7013303678 | [LinkedIn](#) | [GitHub](#)

## Objective

Computer Science undergraduate with strong foundations in Java, DSA, OOP, SQL, and DBMS. Seeking a Graduate Engineer Trainee opportunity to apply problem-solving, software development, and programming skills in software, AI, and cloud solutions.

## Education

|                                                             |                   |
|-------------------------------------------------------------|-------------------|
| <b>CMR College of Engineering and Technology, Hyderabad</b> | 2023 – 2027       |
| B.Tech in Computer Science Engineering                      | <b>CGPA: 8.89</b> |
| <b>Telangana State Model School &amp; Jr. College</b>       | 2021 – 2023       |
| Intermediate (MPC)                                          | <b>98.5%</b>      |
| <b>Telangana State Model School</b>                         | 2021              |
| Secondary School Certificate                                | <b>GPA: 10/10</b> |

## Technical Skills

**Languages:** Java, C, Python (Basic), SQL

**Web Technologies:** HTML, CSS

**AI/ML:** Machine Learning, Generative AI, LSTM

**Cloud:** Google Cloud Platform (GCP)

**Databases & Tools:** MySQL, GitHub, Git, Docker, Linux, VS Code, Tableau

**Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks

## Experience

**L4G — Supported by Google for Developers** May 2026 – Jul 2026

**Virtual Intern – Associate Cloud Engineering** [Certificate](#)

**Virtual Intern – Generative AI** [Certificate](#)

- Completed 10-week virtual internships in Cloud Engineering and Generative AI.
- Earned 32 Google Cloud Skill Badges through hands-on labs in cloud infrastructure, AI, and application development.
- Worked with GCP, Compute Engine, Cloud Storage, IAM, Networking, and Vertex AI.
- Applied cloud deployment, prompt engineering, Generative AI, and Responsible AI concepts.

## Projects

**Stock Price Prediction using LSTM** | Python, TensorFlow, Pandas, NumPy [GitHub](#)

- Developed an **LSTM** Machine Learning model for stock price prediction using historical time-series data.
- Implemented data preprocessing, feature scaling, model training, testing, and evaluation.
- Applied hyperparameter tuning to improve model performance.

**Pancreatic Cancer Detection using Machine Learning** | Python, CNN, Random Forest [GitHub](#)

- Developed a **Machine Learning** prediction system for pancreatic cancer detection using medical datasets.
- Performed data preprocessing, feature engineering, model training, testing, and evaluation.
- Built an interactive interface for model inference and cancer risk assessment.

## Certifications

- Google Cloud Certified Generative AI Leader
- Microsoft Certified: Azure AI Apps and Agents Developer Associate
- Salesforce Agentforce Specialist
- Infosys Springboard – AI Primer, Generative AI
- Cisco Networking Academy – Python Essentials 1 & 2, Network Basics
- Deloitte Data Analytics Job Simulation
